Description:

- Colosseum in collaboration with IEEE-DBIT and IETE-DBIT conducted The Bug Busters event which provided the participants an opportunity to hone their coding skills and fill the loopholes in their coding journey by :
 1. Predicting the output
 2. Debugging the code
 3. Applying logic and code a solution to a given problem statement.
- The participants were provided with an opportunity to choose from the following languages to appear for the competition :
 - C
 - Java
 - Python
 - Scilab

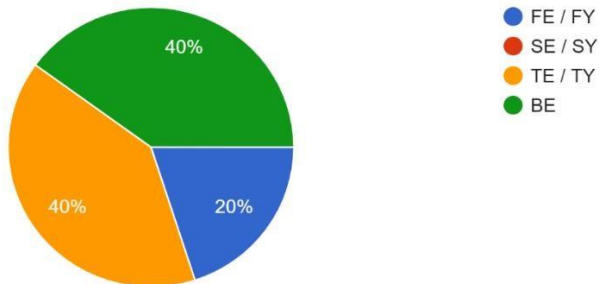

Platform: Google Form

- **Challenges Faced:**
 - Developing unique question sets not available on the internet.
 - Preparing questions in such a way that the student should not be able to copy paste it directly on the web browser.
- **Key Factor for the Success of the Event:**
 - The enthusiasm and willingness of participants.
 - The diligence of the team organizing the event
 - The unbiased decision of the judges in declaring the qualifiers and winners.
- **Individual Learning in Organizing the Event:**
 - Improved Communication Skills due to frequent interaction with the students and teachers.
 - Team Management.
